

Philips IntelliVue MX750 - Equipment Datasheet

The IntelliVue MX750 patient monitor is designed for advanced patient monitoring in ICU, emergency, and surgical care environments. It supports real-time vital sign monitoring with integrated clinical decision support.

Specification	Details
Device Category	Patient Monitor
Model Name	IntelliVue MX750
Model Number	MX750-ICU
Manufacturer	Philips Healthcare
Display	15-inch Touchscreen
Monitoring Parameters	ECG, SpO2, NIBP, Temp, Respiration
Voltage	120 V
Amperage	2.5 A
Wattage	250 W
Weight	6.5 kg
Connectivity	Wi-Fi, LAN, HL7, DICOM
Operating Humidity	10% to 90% RH

Key Features:

- Real-time patient monitoring
- Advanced alarm management
- EMR integration support
- Portable ICU workflow support
- Multi-patient dashboard connectivity
